

Local Business Case Study

The
ChronicleHerald

WHAT WE DO

The Chronicle Herald is the premier place to advertise your local businesses in Nova Scotia. They seamlessly integrate your print and digital advertising campaigns to give your business a place not only in the newspaper, but on the web. In short, they help local advertisers be found easier online. The more print ads local businesses run, the better they will perform digitally and the higher they will show up in online search results.

About
At Helping Nature Heal, our expert landscape designers and crew work with nature to create beautiful, ecological outdoor spaces that connect people to the land and environment around them. Our unique approach blends ecosystem science, landscape design, ecological restoration, biodynamics, permaculture, eco-forestry, and horticulture therapy to create sustainable landscapes that are customized to each client. Our designs harmonize the desires of our clients with the needs of the surrounding ecosystems to create personalized outdoor spaces that are biologically diverse, ecologically functional, aesthetically pleasing, and spiritually renewing.
